**Cooperate souvenir for volunteers:** Disaster Volunteers of Ghana will give to you a souvenir on your arrival and departure.

**Transportation to placement:** You will be travelling with our In-Country coordinator or a staff by Car, Cab, Tro-tro (mini-van) or bus to your destination. D.A.C.F will be responsible for one-way transportation to project and volunteers will be responsible for their personal and return travel. Where your placement demands you travel a distance to and from the house to the place of work, the volunteer have to pay that cost themselves.

**Accommodation:** You will be staying with a host family, within a rented house or a hostel and volunteer will stay either in a single or shared room. Our host families are carefully screened and selected base on DIVOG's requirements. All our families are middle-class and live in safe neighborhoods. The distance from the project varies. The family will provide three meals a day usually except on some unforeseen circumstances.

**Food:** In most cases your meals are cooked and provided for you by your host family. You will be getting 3 Meals per day (Breakfast, Lunch and Dinner) Traditional but very nutritious. If you're a vegetarian or have any allergies, this is taken into account when we arrange your *placement*.

**24/7 in Country Support & Supervision:** There are field offices and staffs all over our projects sites and our country co-coordinator will also be available to help you when you need it, including a 24-hour support team. D.A.C.F is committed to making sure all participating communities and volunteers benefit from the collaboration.

**Safety:** Your well being while *volunteering* with us is our priority. We make sure your trip is safe and our in-country coordinator will provide whatever support you may need at any step along the way.

**Administrative Charges:** Our staff works every day to take care of our *volunteers*: Emails are answered; phone calls are taken; coordination occurs between projects; and most importantly volunteers are placed within areas of their interest in villages. Although most of our staff works on a volunteer basis, there are always *costs* to any organization. We try hard to keep these administration costs to a minimum so that your money can be used most effectively.
